

# Senior Project Guidelines

- All projects completed for Turning Point must have an educational component about the organization. This can be a flyer, brochure, video, etc.
- If a student is raising money as a part of their project, all checks must be made out to Turning Point.
- Turning Point can assist with promoting Senior Projects through social media if students provide promotional materials to their mentor.
- If a student would like to have a Turning Point Staff Member, including their mentor, attend their project, the student needs to make this request in a timely manner. If the request is not made in a timely manner, Turning Point cannot guarantee that a Staff Member will be able to attend the project.
