

May 2021

Dear Friends!

This Impact Report is Turning Point's look at the year that was...2020. We ALL began our journey into 2020 full of hope and promise, but then the world came to a standstill with COVID-19's global spread. Turning Point, along with the rest of the world, had to reassess what was important to continue the work while taking care of staff and clients' health and wellbeing.

As an agency, we quickly found the best ways to adapt to closures and protocols so that program and service delivery could continue uninterrupted in our five-county service region as it has for over 45 years. This situation forced everyone across communities to rely on one other under extraordinary circumstances and to reach out with more intention.

The following data and pictorial pathway clearly shows that we would not have made it through 2020 without YOU! I also invite you to continue with us as Turning Point journeys further into 2021 and beyond by embracing this year's theme, It Starts With Me!

We hope you find new and different meaningful ways to "start" something—in your family, your workplace, your community. We invite you to be a part of the social change that gives hope for a brighter future. We sincerely appreciate you taking this message to heart, as we work together to end dating and domestic violence in our communities and improve the safety and wellbeing of our families and neighbors today and every day.

Please continue to stay safe and healthy and know it starts with all of us!

With deepest gratitude,

Lisa Shafran
President

IT STARTS WITH ME!
